

Presentation

On 1st January 2002 the ICO-HOSPITAL Dr. Josep Trueta began to work as "Oncology Reference Unit for the Sanitary Region of Girona". The main objective of this new organization was to obtain a qualitative improvement in oncology, promoting the integration of the assistance, the multidiscipline that the tumours committees give in order to make the most adequate therapeutic decision, having the new most advanced therapeutic and diagnostic technologies in oncology, adapted to the growth of incidence of cancer and to respond to the assistance demand of the region.

How to arrive

The ICO-HOSPITAL Doctor Josep Trueta is located in the city of Girona, to the north entrance by Sarrià de Ter. If you have arrived in the city by train, you can continue the transport to the Hospital by taxi or bus. In both cases, the stops are situated by the station itself. The buses of the line 2 leave at quarter past the hour and at quarter to the hour, so they run every thirty minutes. From the Hospital and in Girona the buses leave at the hour and at half past. The stop is next to the interstate road, leaving by the main door of the Hospital. There is also a taxi stand.
